LUKE 16:10 (NIRV)

¹⁰“Suppose you can be trusted with something very little. Then you can also be trusted with something very large. But suppose you are not honest with something very little. Then you will also not be honest with something very large.”

- As you successfully handle the responsibilities and privileges of one area, you will eventually be moved to the next area!
- Your obedience and maturity will build trust so that you can move on.
- If you're not obedient or faithful, you won't be trusted...You will stay, or even be moved backwards.
- How far back you move depends on the extent of your disobedience.
- Restoring trust and demonstrating obedience will allow you to move forward again.
- The same patterns happen in other areas of life.
